## I. FUND INFORMATION

### **Fund Name**

Hong Leong Consumer Products Sector Fund ("HLCPSF" or "the Fund")

### **Fund Category**

Equity

### **Fund Type**

Growth

### **Investment Objective**

To provide the Malaysian public with an affordable and flexible access into an investment portfolio that focuses solely on securities that are classified under the Bursa Malaysia Consumer Product sector.

### **Duration of the Fund and its termination date, where applicable**

Not Applicable

### **Benchmark**

Bursa Malaysia Consumer Products and Services Index

### **Distribution Policy**

The Fund intends to provide Unit holders with long-term capital growth. As such, cash distribution will be incidental to the overall capital growth objective and a substantial portion of the income returns from investments will be reinvested. The Fund may also declare distributions in the form of additional Units to its Unit holders.

## II. FUND PERFORMANCE

**Chart 1: Performance of the Fund versus the benchmark covering the last five-year financial periods**

Source: Lipper for Investment Management, in Malaysian Ringgit terms, ex-distribution, NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from HLCPSPF reinvested.

**Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.**

### Performance Review

This Semi-Annual Report covers the six-month financial period from 1 October 2023 to 31 March 2024.

The Fund posted a return of 3.73% (based on NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from the Fund reinvested) in the past six months while its benchmark the Bursa Malaysia Consumer Products & Services Index registered a return of 3.34%. During the financial period under review, the Fund had distributed gross income distribution of 0.10 sen per unit (net income distribution of 0.10 sen per unit) on 26 January 2024. Prior to the income distribution, the cum-distribution Net Asset Value (NAV) per unit of the Fund was RM0.2173 while the ex-distribution

NAV per unit was RM0.2163. Unit holders should note that income distributions have the effect of reducing the NAV per unit of the Fund after distributions.

For the five-year financial periods ended 31 March 2024, the Fund registered a return of -9.93% compared to the benchmark's return of -15.70% while distributing a total gross income of 10.3110 sen per unit (net income of 10.2966 sen per unit).

### III. INVESTMENT PORTFOLIO

**Chart 2: Asset Allocation – October 2023 to March 2024**

**Chart 3: Sector Allocation as at 31 March 2024**

#### **Strategies employed by the Fund during the period under review**

During the financial period under review, the Fund continued to hold into selected domestic-centric consumer stocks which could benefit from resilient local consumption as well as recovery of foreign tourist arrivals. The core holdings of the Fund remain relatively unchanged. The Fund continues to invest in companies with a stable profitability track record, competent management and ability to maintain long-term profit margins.

#### **An explanation on the differences in portfolio composition**

The investment level of the Fund stood at 95% as of 31 March 2024, which is slightly higher than investment level of 94% 6 months ago, as the Fund took the opportunity on market weakness to position into quality consumer companies.

## **Operational review of the Fund**

For the financial period under review, there were no significant changes in the state of affairs of the Fund or circumstances that would materially affect the interest of Unit holders up to the date of this Manager's report.

### **IV. MARKET REVIEW**

During the financial period under review, the MSCI AC Asia Pacific ex Japan Index rose 9.2%. The best performing markets were Taiwan and Korea while the laggards were Shenzhen and Hong Kong. In the local market, the FTSE Bursa Malaysia (FBM) KLCI gained 7.9%. Small caps underperformed as the FBM Small Cap Index rose 6.8%.

The final quarter of 2023 started on a tentative note as investors maintained a high cash level in their portfolios in view of the weak economic outlook and heightened geopolitical risk. However, global equity markets rallied strongly in the last two months of the year as statements by the United States (US) Federal Reserve (Fed) left very little doubt that the current rate hike cycle is at an end. US indices led the global equity rally as the Dow Jones Industrial Average (DJIA) Index hit an all-time high in December.

The global market continued to rally in the first quarter of 2024, as investors remained bullish on the back of the strong Gross Domestic Product (GDP) growth recorded in US, which has eased the concerns of a potential recession. Meanwhile, the inflation has seen signs of slowing down, and prompted investors with the hope of lower interest rate by the end of the year.

Although the FBM KLCI posted a positive return, it was a quiet fourth quarter for the Malaysia market in comparison to other global peers as investors, particularly foreign investors, appeared to find more urgency to cover their underweight in developed markets before deploying cash in emerging markets.

The local market had a strong start, and became one of the best performing markets in the region for first quarter 2024, as foreign investors returned and bought into local stocks amid higher rate cut expectation, coupled with attractive valuation for Malaysia stock market.

## **V. FUTURE PROSPECTS AND PROPOSED STRATEGIES**

We expect investor sentiment to improve considerably given the significant shift in interest rate outlook by the US Fed in their recent communications with the media and investors. With inflation expected to be at benign levels for the year, it is encouraging to know that global central banks will have the flexibility to ease monetary policy to support the economy should the need arises.

We expect the local market to also gain some interest among foreign investors who are looking to have exposure in the emerging market space as the 'risk-on' sentiment prevails. Other external factors that might support interest in the local market includes the expected correction in the US Dollar and the high valuation of the US market.

However, as the economic outlook is still fraught with uncertainty, we expect investors to remain cautious. We opine the best strategy to navigate through this challenging environment is through bottom-up stock picking and remain invested in high quality companies.

## **VI. SOFT COMMISSIONS**

The Manager has received soft commissions from brokers/dealers in the form of goods and services such as research materials, data and quotation services incidental to investment management of the Fund and investment related publications. Such soft commissions received are utilised in the investment management of the Fund and are of demonstrable benefit to the Fund and Unit holders and there was no churning of trades.

## **VII. SECURITIES LENDING OR REPURCHASE TRANSACTIONS**

No securities lending or repurchase transactions have been carried out during the financial period under review.

## **VIII. CROSS TRADE TRANSACTIONS**

No cross trade transactions have been carried out during the financial period under review.

## STATEMENT BY THE MANAGER

---

I, Hoo See Kheng, as the Director of Hong Leong Asset Management Bhd, do hereby state that, in the opinion of the Manager, the accompanying unaudited condensed financial statements set out on pages 10 to 33 are drawn up in accordance with the provision of the Deeds and give a true and fair view of the financial position of the Fund as at 31 March 2024 and of its financial performance, changes in equity and cash flows for the financial period ended 31 March 2024 in accordance with the Malaysian Financial Reporting Standard 134 “Interim Financial Reporting” and International Accounting Standard 34 “Interim Financial Reporting”.

For and on behalf of the Manager,

# NOTES TO THE CONDENSED FINANCIAL STATEMENTS *(Unaudited)*

FOR THE FINANCIAL PERIOD ENDED 31 MARCH 2024

## 1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

Hong Leong Consumer Products Sector Fund ("the Fund") was constituted pursuant to the execution of a Deed dated 25 July 2000 and Supplemental Deeds dated 18 December 2000, 8 March 2004 and 30 April 2010 between Hong Leong Asset Management Bhd ("the Manager"), Universal Trustee (Malaysia) Berhad for the unit holders of the Fund. Universal Trustee (Malaysia) Berhad has been replaced with Deutsche Trustees Malaysia Berhad ("the Trustee") effective 1 August 2013 and Supplemental Master Deeds were entered into between the Manager, the Trustee for the unit holders of the Fund on 30 May 2013, 25 March 2015, 21 June 2022 and 15 March 2023 to effect the change ("the Deeds").

The Fund's primary objective is to provide the Malaysian public with an affordable and flexible access into an investment portfolio that focuses solely on securities that are classified under the Bursa Malaysia Consumer Product sector. The Fund will aim to outperform the said sector's benchmark index which is the Bursa Malaysia Consumer Products and Services Index, while assuming a risk level that matches that of the said sector.

The Fund will invest into a diversified portfolio of equities involved in the consumer product sector. The consumer product sector comprises companies that produce, manufacture and distribute materials or components into new products for consumer use. These companies include but are not limited to companies involved in the food, beverage, tobacco, household goods, fashion, apparel, footwear, textiles and automobiles industries. The Fund commenced operations on 29 August 2000 and will continue its operations until terminated as provided under Part 12 of the Deeds.

The Manager of the Fund is Hong Leong Asset Management Bhd, a company incorporated in Malaysia. The principal activity of the Manager is the management of unit trust funds, private retirement schemes and private investment mandates. Its holding company is Hong Leong Capital Berhad, a company incorporated in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad.

The financial statements were authorised for issue by the Manager on 21 May 2024.

## **2. MATERIAL ACCOUNTING POLICY INFORMATION**

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements:

### **(a) Basis of preparation**

The condensed financial statements are unaudited and have been prepared in accordance with the Malaysian Financial Reporting Standard 134 "Interim Financial Reporting" and International Accounting Standard 34 "Interim Financial Reporting".

The condensed financial statements should be read in conjunction with the audited financial statements of the Fund for the financial year ended 30 September 2023 which have been prepared in accordance with the provisions of the Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards ("IFRS").

### **(b) Financial assets and financial liabilities**

#### Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ("OCI") or through profit or loss), and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flows characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Fund's debt securities are solely principal

and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from brokers/dealers, amount due from the Manager and dividends receivable as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amounts due to the Manager, amount due to the Trustee and other payables and accruals as financial liabilities measured at amortised cost.

### Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the period which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of dividend income when the Fund's right to receive payments is established.

Quoted investments are valued at the last traded market prices quoted on Bursa Malaysia Securities Berhad ("Bursa Securities") at the date of the statement of financial position.

If a valuation based on the market price does not represent the fair value of the quoted investments, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the quoted securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the quoted securities are valued as determined in good faith by the Manager, based on the methods or bases approved by the Trustee after appropriate technical consultation.

Deposits with licensed financial institutions are stated at cost plus accrued interest calculated on the effective interest rate method over the period from the date of placement to the date of maturity of the respective deposits, which is a close estimate of their fair value due to the short term nature of the deposits. Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective interest rate method.

### Impairment

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability

of default to be closed to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

#### Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

#### Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

#### Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of obligor's sources of income or assets to generate sufficient future cash flows to pay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial period.

### **(c) Functional and presentation currency**

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

#### **(d) Income recognition**

Dividend income is recognised on the ex-dividend date when the Fund's right to receive payment is established.

Interest income from deposits with licensed financial institutions and auto-sweep facility bank account are recognised on the effective interest rate method on an accrual basis.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gain or loss on disposal of quoted investments is accounted for as the difference between the net disposal proceeds and the carrying amount of quoted investments, determined on a weighted average cost basis.

#### **(e) Cash and cash equivalents**

For the purpose of statement of cash flows, cash and cash equivalents comprise cash at banks and deposits held in highly liquid investments that are readily convertible to known amounts of cash with an original maturity of three months or lesser which are subject to an insignificant risk of changes in value.

#### **(f) Amount due from/to brokers/dealers**

Amount due from/to brokers/dealers represents receivables/payables for investments sold/purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

These amounts are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less provision for impairment for amount due from brokers/dealers. A provision for impairment of amount due from a broker/dealer is established when there is objective evidence that the Fund will not be able to collect all amounts due from the relevant broker/dealer. Significant financial difficulties of the broker/dealer, probability that the broker/dealer will enter bankruptcy or financial reorganisation, and default in payments are considered indicators that the amount due from brokers/dealers is impaired. Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

**(g) Taxation**

Current tax expense is determined according to Malaysian tax laws at the prevailing tax rate based on the taxable profit earned during the financial period. Withholding taxes are not "income tax" in nature and are recognised and measured based on the requirements of MFRS 137. They are presented within other expenses line in the statement of comprehensive income.

**(h) Distribution**

A distribution to the Fund's unit holders is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the financial period in which it is approved by the Board of Directors of the Manager.

**(i) Transaction costs**

Transaction costs are costs incurred to acquire or dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents and brokers/dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

## **(j) Unit holders' capital**

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the unit holder to a proportionate share of the Fund's net asset value;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase the units; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss and change in the net asset value of the Fund.

The outstanding units are carried at the redemption amount that is payable at the date of the statement of financial position if unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's net asset value per unit at the time of creation and cancellation. The Fund's net asset value per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

## **(k) Fair value of financial instruments**

Financial instruments comprise financial assets and financial liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The information presented herein represents the estimates of fair values as at the date of the statement of financial position.

The Fund's financial assets and financial liabilities are measured on an ongoing basis at either fair value or at amortised cost based on the respective classification.

The following table analyses the financial assets and financial liabilities of the Fund in the statement of financial position as at the reporting date:

	Financial assets at FVTPL RM	Financial assets/ liabilities at amortised cost RM	Total RM
<b>31.03.2024</b>			
<u>Financial assets</u>			
Cash and cash equivalents	-	2,094,309	2,094,309
Amount due from brokers/dealers	-	235,860	235,860
Dividends receivable	-	288,100	288,100
Financial assets at FVTPL (Note 8)	47,894,504	-	47,894,504
	<u>47,894,504</u>	<u>2,618,269</u>	<u>50,512,773</u>
<u>Financial liabilities</u>			
Amount due to the Manager			
-cancellation of units	-	215,968	215,968
-management fee	-	63,990	63,990
Amount due to the Trustee	-	3,413	3,413
Other payables and accruals	-	8,107	8,107
	<u>-</u>	<u>291,478</u>	<u>291,478</u>
<b>30.09.2023</b>			
<u>Financial assets</u>			
Cash and cash equivalents	-	2,747,101	2,747,101
Amount due from the Manager			
-creation of units	-	194	194
Dividends receivable	-	216,019	216,019
Financial assets at FVTPL (Note 8)	47,751,425	-	47,751,425
	<u>47,751,425</u>	<u>2,963,314</u>	<u>50,714,739</u>
<u>Financial liabilities</u>			
Amount due to the Manager			
-management fee	-	62,507	62,507
Amount due to the Trustee	-	3,334	3,334
Other payables and accruals	-	9,434	9,434
	<u>-</u>	<u>75,275</u>	<u>75,275</u>

All liabilities are financial liabilities which are carried at amortised cost.

## **(I) Critical accounting estimates and judgements in applying accounting policies**

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission Malaysia's Guidelines on Unit Trust Funds.

However, the Manager is of the opinion that there are no accounting policies which require significant judgement to be exercised.

## **3. FAIR VALUE ESTIMATION**

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the reporting date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each period/year end date. Valuation techniques used for non-standardised financial instruments such as options, currency swaps and other over-the-counter derivatives, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted equity, debt securities and other debt instruments for which market were or have been inactive during the financial period. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counter party risk.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2); and
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that requires significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy of the Fund's financial assets (by class) measured at fair value:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
<b>31.03.2024</b>				
<u>Financial assets at FVTPL:</u>				
- Quoted equity securities	47,894,504	-	-	47,894,504
<b>30.09.2023</b>				
<u>Financial assets at FVTPL:</u>				
- Quoted equity securities	47,751,425	-	-	47,751,425

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed equities. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

- (ii) The carrying values of financial assets (other than financial assets at FVTPL) and financial liabilities are a reasonable approximation of their fair values due to their short term nature.

#### 4. MANAGEMENT FEE

In accordance with Division 13.1 of the Deed, the Manager is entitled to a management fee of up to 1.50% per annum calculated daily based on the net asset value of the Fund.

For the financial period ended 31 March 2024, the management fee is recognised at a rate of 1.50% (2023: 1.50%) per annum.

There is no further liability to the Manager in respect of management fee other than the amount recognised above.

## 5. TRUSTEE'S FEE

In accordance with Division 13.2 of the Deed, the Trustee is entitled to a fee not exceeding 0.08% per annum calculated daily based on the net asset value of the Fund.

For the financial period ended 31 March 2024, the Trustee's fee is recognised at a rate of 0.08% (2023: 0.08%) per annum.

There is no further liability to the Trustee in respect of Trustee's fee other than the amount recognised above.

## 6 TAXATION

	2024 RM	2023 RM
Tax charge for the financial period:		
Current taxation	-	-

The numerical reconciliation between profit before taxation multiplied by the Malaysian statutory income tax rate and tax expense of the Fund is as follows:

	2024 RM	2023 RM
Profit before taxation	1,832,223	2,603,644
Taxation at Malaysian statutory rate of 24% (2023: 24%)	439,734	624,875
Tax effects of:		
Investment income not subject to tax	(543,052)	(754,347)
Expenses not deductible for tax purposes	8,274	22,737
Restriction on tax deductible expenses for unit trust fund	95,044	106,735
Taxation	-	-

## 7. DISTRIBUTIONS

Distribution to unit holders is derived from the following sources:

	2024 RM	2023 RM
Prior financial years' realised income	228,879	1,084,363
Interest income	-	26,620
Dividend income	-	385,288
Less: Expenses	-	(268,550)
Net distributions amount	228,879	1,227,721

### Date of Declaration

**26 January 2024 / 16 January 2023**

Gross/net distribution per unit (sen)	0.1000	0.5000
---------------------------------------	--------	--------

The composition of distribution payments sourced from income and capital are disclosed in below:

	Income		Capital	
	RM	%	RM	%
<b>2024</b>	228,879	100.00	-	-
<b>2023</b>	1,227,721	100.00	-	-

Net distributions above are sourced from prior financial year's and current financial period's realised income. Gross distribution is derived using total income less total expenses.

Gross distribution per unit is derived from net realised income less expenses divided by units in circulation, while net distribution per unit is derived from net realised income less expenses and taxation divided by units in circulation.

## 8. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS ("FVTPL")

	31.03.2024 RM	30.09.2023 RM
Financial assets at FVTPL:		
Quoted equity securities	47,894,504	47,751,425

	2024 RM	2023 RM
Net gain on financial assets at FVTPL:		
Realised gain/(loss) on disposals	231,832	(953,163)
Changes in unrealised fair values	1,186,215	3,094,817
	1,418,047	2,141,654

Financial assets at FVTPL as at 31 March 2024 are as detailed below:

	Quantity units	Aggregate cost RM	Fair value RM	Percentage of net asset value %
<b>QUOTED EQUITY SECURITIES</b>				
<u>Consumer Products &amp; Services</u>				
Able Global Berhad	1,500,000	2,764,500	2,625,000	5.23
AEON Co. (M) Bhd	1,000,000	1,357,854	1,090,000	2.17
Berjaya Food Berhad	2,377,500	1,063,920	1,402,725	2.79
Bermaz Auto Berhad	800,000	1,853,406	1,912,000	3.81

<b>TOTAL QUOTED EQUITY SECURITIES</b>	<b>14,165,666</b>	<b>45,439,977</b>	<b>47,751,425</b>	<b>94.28</b>
<b>UNREALISED GAIN ON FINANCIAL ASSETS AT FVTPL</b>		<b>2,311,448</b>		
<b>TOTAL FAIR VALUE OF FINANCIAL ASSETS AT FVTPL</b>			<b>47,751,425</b>	

## 9. UNITS IN CIRCULATION

	01.10.2023 to 31.03.2024 No. of units	01.10.2022 to 30.09.2023 No. of units
At the beginning of the financial period/year	235,327,283	247,215,023
Add: Creation of units during the financial period/year		
-Arising from applications	4,739,170	7,746,709
-Arising from distributions	1,025,994	12,616,375
Less: Cancellation of units during the financial period/year	(15,035,529)	(32,250,824)
At the end of the financial period/year	226,056,918	235,327,283

## 10. TOTAL EXPENSE RATIO ("TER")

	2024 %	2023 %
TER (annualised)	1.66	1.65

Total expense ratio includes management fee, Trustee's fee, auditors' remuneration, tax agent's fee and other expenses for the financial period divided by the Fund's average net asset value calculated on a daily basis and is calculated as follows:

$$\text{TER} = \frac{(A+B+C+D+E)}{F} \times 100$$

Where;

- A = Management fee
- B = Trustee's fee
- C = Auditors' remuneration
- D = Tax agent's fee
- E = Other expenses
- F = Average net asset value of the Fund calculated on a daily basis

The average net asset value of the Fund for the financial period calculated on a daily basis is RM50,232,267 (2023: RM57,156,332).

## 11. PORTFOLIO TURNOVER RATIO ("PTR")

	2024 Times	2023 Times
PTR	0.03	0.15

PTR is derived from the following calculation:

$$\frac{(\text{Total acquisitions for the financial period} + \text{total disposals for the financial period}) / 2}{\text{Average net asset value of the Fund for the financial period calculated on a daily basis}}$$

- Where; total acquisitions for the financial period  
 = RM1,052,897 (2023: RM7,690,454)  
 total disposals for the financial period  
 = RM2,096,033 (2023: RM9,483,108)

## 12. UNITS HELD BY THE MANAGER AND RELATED PARTIES TRANSACTIONS AND BALANCES

The related parties and their relationships with the Fund are as follows:

<u>Related parties</u>	<u>Relationships</u>
Hong Leong Asset Management Bhd	The Manager
Hong Leong Islamic Asset Management Sdn Bhd	Subsidiary of the Manager
Hong Leong Capital Berhad	Holding company of the Manager
Hong Leong Financial Group Berhad ("HLFG")	Ultimate holding company of the Manager
Subsidiaries and associates of HLFG as disclosed in its financial statements	Subsidiaries and associate companies of the ultimate holding company of the Manager

No units were held by the Manager and parties related to the Manager as at 31 March 2024 and 30 September 2023.

In addition to related party disclosures mentioned elsewhere in the financial statements, set out below are other related party transactions and balances. The Manager is of the opinion that all transactions with the related companies have been entered into at agreed terms between the related parties.

	<b>31.03.2024</b>	<b>30.09.2023</b>
	<b>RM</b>	<b>RM</b>
<u>Related party balances</u>		
Cash at bank:		
- Hong Leong Bank Berhad	2,020,094	2,612,843

## (viii) Total Expense Ratio (TER)

## (ix) Portfolio Turnover Ratio (PTR) (times)

## B Average Total Return, NAV Per Unit-to-NAV Per Unit basis (as at 31/03/2023)\*

- (i) One year
- (ii) Three years
- (iii) Five years

\* Source: Lipper for Investment Management  
(Returns are calculated after adjusting for distributions and/or additional units, if any)

# The PTR decreased by 0.23 times (88.46%) to 0.03 times for the financial period from 1 October 2023 to 31 March 2024 versus 0.26 times for the financial year ended 30 September 2023 and 0.12 times (80%) as compared to 0.15 times for the financial period from 1 October 2022 to 31 March 2023 mainly due to lower level of rebalancing activities undertaken by the Fund.
